VOTE TOMORROW!

Daly City Record

DALY CITY, SAN MATEO COUNTY, CALIFORNIA, MONDAY, APRIL 8, 1940 SPECIAL EDITION

Polls Open 6am-7pm

All day tomorow, from dawn until nightfall, election officials in nine consolidated precincts will be busy taking the votes which will determine Daly City's political personnel for the next two years.

The polls will be open from 6 a. m. to 7 p. m., according to B. C. Ross, city clerk. This will assure every local resident an opportunity to vote at some time during the day.

Notices were sent out from the city hall last week informing each voter of his proper polling place. City officials expect one of the largest turn-outs in the history of local elections.

"The issues involved in this campaign are important," city officials pointed out tonight. "They deserve the painstaking consideration of every resident of this city."

The nine official voting places are listed below:

(Continued on Page 2)

NO LIQUOR

No liquor will be sold tomorrow in the 11 San Mateo County municipalities which go to the polls to elect municipal officials, Earl McCann, supervising liquor control officer for the county, announced today at the offices of the State Board of Equalization in Burlingame.

In his statement McCann warned all establishments dispensing liquor either by the drink or the bottle, that the state law specifically prohibits selling or giving away alcoholic beverages on election day, tomorrow, between the hours of 6 a. m. and 7 p. m., when the polls are open for voting.

McCann said county establishments always have co-operated in the past, and he expects the same observance tomorrow, when city residents are at the polls electing councilmen and other city officers.

THE CITY ELECTION

Editorial Comment

Daly City Record political interests can be defined in two words—GOOD GOVERNMENT

We are proud of the fact that the history of this community has been a story of good government—steady municipal development with a minimum of political turmoil.

On this election eve, The Record deems it fitting to make the following recommendations to Daly City voters. It is our opinion that Councilmen Edmund T. Cavagnaro and John J. Fahey, incumbents, should be returned to office. We heartily endorse Berton C. Ross, incumbent city clerk, and Mrs. Florence Stockton, incumbent city treasurer, who are unopposed.

The Record feels well qualified to make the above recommendations, since it has been the business of your local newspaper to cover, week by week, the political fronts of this community. Every issue of this newspaper has carried unbiased, correct and complete accounts of municipal affairs. Via The Record's "Open Door" every political interest, every candidate, has had the opportunity to tell his story.

It is because of this close association with municipal affairs that the editors feel their decision to endorse Councilmen Cavagnaro and Fahey is an intelligent one.

First let us say this: We have no grievance with Herbert G. King nor Eugene V. Lynch, who are opposing the incumbents. Our endorsement of Cavagnaro and Fahey is based solely upon the proposition that these men, because of their long background in Daly City municipal life, are better qualified to fill the council posts.

Four years ago The Record supported Cavagnaro and Fahey in their campaign to be elected councilmen. Two years ago this newspaper supported the combination of Selmi - Sundermann - Twesten for councilmen. In these last elections, as in many before, the people of Daly City have confirmed The Record's choice.

Without hesitation, we recommend that Cavagnaro and Fahey be returned to office, and that Daly City maintain its record of GOOD GOVERNMENT.

To The Progressive Citizens Of Our City

We wish to thank The Record and express our appreciation in furnishing all candidates this six inches of space outlining their qualifications for election next Tuesday as your representatives on the Board of Councilmen.

We are not, however, availing ourselves of this space to enumerate our fitness and our program for the office we seek, but are rather accepting this space to call your special attention to Our Own Paid Full Page Advertisement appearing on Page 4 in this paper.

Mr. Eugene V. Lynch
Mr. H. G. King

UNOPPOSED

Mrs. Florence Stockton, incumbent city treasurer.

Berton C. Ross, incumbent city clerk.

Voters To Select Leaders

Council Post Sought By Four

In little more than twenty-four hours, Daly City will know the answer to one of its most puzzling and controversial questions—who will guide the city's government during the next two years?

What policies will be put into effect to set the tempo of civic affairs here? How shall the taxpayers' money be spent and for what? Which officials should be retained in the present city hall set-up and which not?

Local voters will themselves determine the answers to these baffling problems, when all Daly City goes to the polls tomorrow to cast its vote. Polling places will be open from 6 a. m. to 7 p. m.

Appearing on the ballot will be candidates for the offices of city clerk, city treasurer and two council posts.

Heaviest battle centers around the four candidates contending for a place on the city council—John J. Fahey and Edmund T. Cavagnaro, incumbents, versus Herbert G. King and Eugene V. Lynch.

Candidates for city clerk and city treasurer will go unopposed at the polls. Berton C. Ross, incumbent clerk, has served in that capacity since 1923.

Mrs. Florence Stockton, incumbent treasurer, has served since 1937, when she was appointed treasurer to fill the vacancy left by the death of her husband, the late A. L. Stockton.

John J. Fahey has been a member of the board of councilmen for the past eight years. One of the pioneer residents of Daly City, he has been actively concerned in city government for many years.

Edmund T. Cavagnaro has served with the council for the past four years, and is likewise well-known here for his participation in civic affairs.

The opposing ticket is represented by Herbert G. King and Eugene V. Lynch, both newcomers to the local political field. King will be remembered as chairman of last year's successful Daly City Day at the Fair, and Lynch is the proprietor of a draying business.

Daly City Municipal Bus FINANCIAL REPORT

Records taken from the books of the city clerk and published here conclusively disprove statements that Daly City's Municipal Bus system is self supporting.

December, 1939
Receipts $611.10 - Disbursements $1,311.28

January, 1940
Receipts $1,099.70 - Disbursements $1,612.31

February, 1940
Receipts $855.40 - Disbursements $2,036.15

March, 1940
Receipts $920.40 - Disbursements $1,556.34

TOTALS
Receipts $3,486.60 - Disbursements $6,516.08

(Initial payment of $3,000 for the busses and $630 transportation costs to bring the busses to Daly City are not included in the above itemized report)

Disregarding the initial outlay for the busses, month by month the municipal transportation system is costing Daly City taxpayers an average of $750.

This is the true financial picture of Daly City's busses. Any claim that the busses are self-sustaining is a falsehood, and such a claim cannot be used as a favorable campaign issue in support of King and Lynch for councilmen.

The above space paid for by the "Cavagnaro-Fahey for Councilmen" campaign committee

World's Greatest Housekeeper
Probably the world's greatest housekeeper is the Pullman company which in a single year purchased 220,528 sheets, 157,780 pillow cases, 20,253 tidies, 455,829 hand towels, 24,318 headrest covers, 13,692 napkins and 3,260 table cloths, the Association of American Railroads reports.

Gorillas Are Sissies
The ferocity of the gorilla, terrifying "boogey" of screen and fiction, has been disproved by explorers. They agree in saying that the animal is extremely shy and difficult to catch sight of, often hiding in the thickest part of the woods on the approach of man.

Largest Jewel
The Smithsonian institution has acquired the world's largest jewel. The stone is an almost flawless crystal of topaz, weighing 153 pounds, or 350,000 carats. The average topaz for a ring or necklace weighs about five carats. The huge gem was discovered in the Minas Geraes province of Brazil. Its color is pale blue on the outside and a pale sherry on the inside.

Fireproofed Cotton Insulation
The possible use of fireproofed cotton as an insulating material in the construction of homes, office buildings, and other structures has been suggested in Texas, where such a process has been developed.

Auctioneer Is Boss
American courts have held that an auctioneer is not compelled to accept the highest bid, according to Collier's. In a Minnesota case, a house was sold to the first bidder for $675 after the second and only other bidder had offered $680. The auctioneer refused to consider such a trifling increase. So the second bidder sued but lost his case on the ground that no contract exists until the offer to purchase is accepted by the auctioneer.

U. S. Outlying Territory
The total outlying territory of the U. S. is 711,606 square miles, the total continental area, 3,026,789 square miles.

TO THE
VOTERS
OF THE CITY OF
DALY CITY

By Councilman Henry Sundermann and Councilman Julius Twesten

Julius Twesten

The undersigned councilmen of the City of Daly City, whose pleasure it has been to serve you for the past many years, note the prevalence of an opinion that they are in some manner involved in the present campaign for the election on April 9th. We therefore take this means of stating that neither of us is in any way involved in the campaign. We desire also to state that no member of the council nor any other individual has either the authority or the right to pretend to express for us or on our behalf any opinion or sentiments concerning the outcome of this election.

The harmonious relationships which have been recently developed on the City Council should be preserved we think, for the best interests of the city and for all concerned. We distinctly condemn any efforts of injecting personalities or abuse into the campaign, feeling that the selection of candidates to public office is finally a matter for the people to decide for themselves. For the same reason we believe that no member of the city council, except those who are running for re-election of course, should in any wise participate in the present campaign.

It is our experience that desirable as any attempt at efficiency and progress may be, the preservation of the fundamental principles of democracy is more important still and we heartily favor and endorse the thought that each and every member of the city council, regardless of political or personal affiliations, is entitled to full courtesy and information concerning the affairs of the city, at all times, as a representative of the people. With these declarations of principle, we are certain that you agree and we leave the matter of selecting the proper persons for this office entirely where it belongs, namely, with you, the voters.

From our own experience on the Board and having the best interests of the people at heart, we cannot hesitate to say that Councilmen John J. Fahey and Edmund T. Cavagnaro receive our personal, as distinguished from any official, endorsement for reelection to office.

HENRY SUNDERMANN
JULIUS TWESTEN

PROGRESSIVE COMMUNITY NEWSPAPER SERVICE

Paid Political Advertising

To The Progressive Citizens of our city:

We wish to call your attention to statements made in the April 3rd issue of the Daly City Record, these statements by the present incumbents, Mr. Fahey and Mr. Cavagnaro, are as follows: (We quote) "We seek re-election to your city council on our past record as your representatives" (End Quote.)

We have taken the following actual records from the public minutes of the council meetings, these minutes are RECORDED FACTS, these minutes are available to YOU to inspect in the offices of the city clerk and speak for themselves.

EXCERPTS FROM THE MINUTES OF COUNCIL MEETINGS

July 12th, 1937—Page 50. Cavagnaro and Fahey voted NO to increase the salaries of police clerks from $125.00 per month to $140.00, notwithstanding they had previously placed themselves on record as favoring a minimum of $5 per day for any city employee. This class of work requires stenographic and clerical experience as well as a knowledge of police procedure.

Sept. 13th, 1937—Page 58. Cavagnaro and Fahey voted NO to the accepting of a donated Palm tree at no cost to the city for the beautification of the Vista Grande Playground.

Dec. 27th, 1937—Page 73. Cavagnaro and Fahey voted NO on a proposal to engage a necessary architect to draw plans for a public library, a most worthy civic project.

Jan. 10th, 1938—Page 76. Cavagnaro voted NO on a proposal to use an obsolete garage as an administration office for the promotion of the splendid activities of the Recreation Department.

March 28th, 1938—Page 88. Cavagnaro and Fahey voted NO on the Templeton Avenue street improvement project.

Dec. 12th, 1938—Page 135. Cavagnaro and Fahey voted NO to the recommendations of the fire department providing JUSTLY deserved compensation for the fire chief and members of the department, a proposal to create greater efficiency in the department and add better protection to your property against fire.

May 8th, 1939; Aug. 28th, 1939—Page 162 and 181. Cavagnaro and Fahey voted NO and bitterly opposed the establishing of the present Municipal Bus system and also for the purchases of the buses to inaugurate this service, a system which today continues to show healthy, consistent gains in passengers and which is just a start to a future enlarged transportation system of our own. In the past four months of operation this system has continued to gain, to where it is now showing close to a self-sustaining basis. It is giving you convenience and comfort as well as being an asset to your children in their transportation to school. The round trip fare within the incorporated area is five cents, a fare ridiculously low for the service it gives you.

April 27th, 1936—Page 495. Cavagnaro and Fahey voted NO on the most necessary appointment of a poundmaster with Mr. Banfield.

Mr. Fahey voted NO on the very urgent necessity for garbage disposal, which gave to the people of Daly City garbage disposal service free of any charge.

MARCH ALONG WITH US

Mr. Eugene V. Lynch is 38 years of age, married, with a son eight years of age, an active church member, and has been a resident of Daly City for the past 11 years. He is a home-owner and taxpayer of our city and resides in the Westlake area.

Mr. Lynch is the owner and manager of Lynch Brothers Draying company of San Francisco and he personally launched this business 18 years ago and has succesfully conducted this business through the period of severe depression, notwithstanding other business houses were forced to retire from business. He is thoroughly familiar with the needs of our city. He is capable and tireless in his enthusiasm for our city's outlook, whose future he visualizes as that greater than any city on this peninsula.

Here is a man with business training, initiative and resourcefulness sufficient to make his own business a success. Here is a man used to meeting daily problems involving the success or failure of that business.

Mr. H. G. King is 48 years of age, a resident and home-owner of Daly City for the past seven years. He is the father of two sons and two daughters, ranging in ages from 9 to 26 years. He has been president of the Fathers' Forum of the Parent-Teachers Association for the past two years. He is active in church affairs, is a member of Vista Grande Aerie of the Eagles.

He was appointed by the Day City council to represent Daly City on the board of Peninsula, Incorporated, an organization having representatives from each city on the Peninsula for the purpose of developing and improving the entire San Mateo county area.

A 14-POINT PROGRAM

1. A Board of Councilmen pledged to complete harmony and co-operation with each other, irrespective of personal political ambitions, or pressure from sources with selfish objectives. But rather, to a spirit of "Let's Pull Together," for our city's welfare.

2. The establishing of a committee of Business Leaders to make recommendations and advise this board on the best procedure for developing and carying out this program.

3. To continue to develop our present municipal transportation system to the comfort and convenience of our citizens who are now expressing their whole-hearted support in patronizing our own rapid transportation. Immediate active steps to secure a transfer privilege in the city.

4. Development of our School and Recreation activities, and the enlarging of these, consistent with the city's growth, so that our coming young citizens can approach the future with health and the security of an educational background.

5. The development and improvement of our Southern section, known as the Colma area. Closer co-operation with the Business Men and Merchants and Residents of that section in their needs, and in more closely aligning their activities with that of all the Merchants within the incorporated area.

6. The general beautification of our city. Principally our main, heavily-traversed artery to the South along Mission street to Colma. A step to assist property owners to aid in this work throughout the city.

7. A City Planning Committee looking to the future, as regards advisability of re-zoning for encouraging light industry in a section far-removed from the actual residential areas, resulting, too, in local employment for our residents. Resulting, too, in more new business for our merchants as well as new home-owners.

8. Complete co-operation with our Police and other Municipal Departments to the end that these departments will be free from political influence, wherein greater efficiency and more capable public servants will be the result.

9. Solicitation and co-operation with the efforts of our local Civic organizations such as the PTA, Church organizations and Recreation committees and other progressive civic betterment units. We feel with the co-operation of these bodies, who are in close touch with our residents, will bring about a closer interest in the activities of our council by the public. In this respect we solicit a greater weekly attendance from our residents at the council meetings, rather than the few who with special interest axes to grind have in the past been the only attendants. We feel that YOU as property owners, Fathers and Mothers of the rising citizens of our city, should make it a point to familiarize yourself with the proceedings of this council in attending these meetings.

10. Inasmuch as a civil service board is prohibitive due to the expense involved in such a set-up, we propose to set up some practical method of filling appointed jobs in this administration based upon past experience, fitness and knowledge of the work to be performed, rather than on political or blood connections. We too, feel that when such appointments are to be made, that publication in the official newspaper should be made, making known to the public that such positions or position are open for applicants. These applications to be read in open council meeting, taking into consideration the worthiness of the applicant, and all things being equal, the most consideration being given to those most in need of such employment, and that such applicants are bonafide residents of our city. Remuneration for such employment should be based upon prevailing Union Scales or equal to that of other municipalities for such work. This to apply as well to day laborers or other temporary or emergency help.

11. We pledge our immediate activity to the establishment of a Day Nursery School, similar to those now so successfully operated by our neighbor, San Francisco. Young children may be taken to these nurseries where Kindergarten technique is used. These children are kept all day, furnished fresh milk and food consistent with their diet requirements at a very small cost to the parents. In addition, periodic medical examination is made of such children, their weight, their teeth, eyes and general physical condition carefully checked and recorded. Periodic reports are made to the mothers as to the child's needs. Mothers' days are held monthly in the nurseries where this work is made known to them. The employees of these nurseries are experienced WPA Employees and the small cost of operation is principally borne by the government through the WPA. We ask the co-operation of the PTA and the mothers of this city in making this most necessary project a success.

12. We stand for the immediate establishment of a progressive and active Business Men's organization looking to the keeping of the dollars spent, being retained in our area. This board should consist of an equal number of Colma and Daly City merchants in order that closer co-operation and better merchandising methods can be employed. We want a spirit of "Let's Pull Together," between our southern end merchants and those of the hilltop area. Many dollars are going into the city which could with little effort be spent here. Our public should be encouraged to spend these dollars here. The efforts of such an active organization could easily make this possible.

13. We further stand for the principle on the part of our city when making fill-in purchases or for materials which can be had through our local business men, that such purchases be made from our Colma and Daly City merchants. All merchants are to receive their equal share of such purchases to the best of our ability.

14. Immediate steps to work in close co-operation with the Federal National Re-Employment Service at South San Francisco, making registration for employment for our unemployed citizens simpler and with the administration's aid, more effective.

We have **not,** nor do we intend to ask the support of any present incumbents to take care of friends or relatives after our election. We have **no** political promises to keep. We are **not** now or ever will be a part of any clique of this or any other administration. We are under obligations to no one for their vote or support and we rest this campaign upon these 14 points which constitute our program for the future and upon our election as your city councilmen on next Tuesday. We pledge to you the immediate inauguration of immediate steps to fulfill this program.

We do not owe allegiance to any politician or political faction, nor have we made pre-election promises of any character to secure support for our candidacy. We are under obligation to NO ONE for any support accorded us in this campaign. We have NO relatives to place in preferred positions in the administration of your affairs. We have NO accounting to make to ANYONE other than our OWN conscience in giving you a clean-cut, honest and progressive administration, looking to the future progress of your home, your family and your city.

YOUR MAYOR ENDORSES

Recently Mayor Selmi forwarded a letter to the voters recommending our fitness to be your representatives. This letter was an unsolicited endorsement, and was inspired after Mayor Selmi learned of our 14-point program. Mr. Selmi's record is known to every progressive citizen of our city. He has consistently advocated and fought for every worthy civic project. For good, rapid, comfortable transportation, recreational activities for our children and secured these things for you against strong political obstructions placed in his path. Mr. Selmi was born in our city, the son of one of the very earliest of Daly City pioneers. He has resided here continuously all his life. He is in a position to know the slow climb of the past to the Daly City of today. He knows, too, the needs for its future. His work is well-known to the end of the Peninsula. This work time and again has received publicity in the outstanding newspapers of this county. Recently the foremost newspaper suggested him as an excellent potential candidate for the office of supervisor of the first district. We feel that this unsolicited support of a public servant with such a record and reputation is an asset to any community.

We call your special attention to a circular mailed to you by our opponents in which they state the Chairman of the board distributed ADVERSE literature in an attempt to defeat their election. This refers to the Mayor's endorsement referred to in the previous paragraph.

NO, Gentlemen, the Chairman did not distribute what you term ADVERSE literature to defeat you. He did send out an unsolicited endorsement of our candidacy. After the conclusion had been reached that you, in order to receive the support of the other two incumbents, your previous long-time political enemies, by the way, arranged a deal to take care of the job placing for their relatives.

RELATIVES COME FIRST

The Mayor felt that you in order to secure a majority on the incoming board to protect these relatives' jobs, you secured this support FIRST by placing the daughter of one in a preferred position in the Water Department, resigning a good position elsewhere in order to do so. The fulfillment of the obligation for this support to the other councilman, we understand, is to take place in the event of your re-election and is reported to be a position in the Police Department. The expense of which will be borne by the taxpayers. The support of these two reactionary politicians (and we mean Politicians, in the true sense) is further evidenced by the paid advertisement endorsing your return to office, for without your return to office, it is obvious that another right-about-face must be made by them to assure the relatives security in their city jobs.

THE NEEDY CAN WAIT

The councilman whose daughter is referred to is the prosperous owner of a local business of many years standing. It is indeed a shameful condition of affairs that deserving, capable unemployed citizens badly in need of employment in support of their families, are sidetracked in order that unneedy politicians' relatives can be taken care of.

NOT CONSTRUCTION, BUT DESTRUCTION

Again rumor has it that other promises have been made to defeat our election. It is said that the outstanding champion for your present municipal bus system is to be disposed of as mayor, providing the present incumbents remain in office. We note that in none of the publicity released by these opponents have they openly faced the issue of this bus system. This system was bitterly opposed by our opponents. Inasmuch as this has not been mentioned, it is possible that this, too, is to be scrapped after many hard months of effort, which efforts now consistently show results in getting a groundwork started toward a municipal-owned, comfortable, convenient bus system of transportation for you and your children.

NO PROGRAM, NO PROMISES NECESSARY

We have, in addition, failed to find any publicity in regard to the future program of our opponents. What are you to expect? What insight, if any, have they into the future needs of this city? As no promises or definite program has been given to you, the voters of this city, it follows that no promises need be kept. What kind of a program or platform are they asking you to again elect them as your representatives? What, if anything, are you to expect in their new administration of your affairs? Or are they certain that the record listed here in this article is sufficient to justify you, the progressive citizens of this city, to again elect them into office to carry on their outstanding opposition to every worthy civic project and improvement, looking to the city's future.

Our program is now in your hands. That Program is a Constructive program for your city's future, with Badly Needed Changes in the administration suggested. That Program is what the voters may Expect of us. It's what the voters Will Get from us.

How about our opponents' future program???

MARCH ALONG WITH US

We promise you a cleanup of the present deplorable and despicable spoils system. The elimination of secret, pre-arranged caucus meetings. We propose to discuss your problems openly before you in the council meetings. We promise you a definite change for Harmony, and the elimination of Reactionary politicians, their henchmen, and the complete elimination of political influence for your appointed servants in the City Hall.

We promise you a thorough analyzing of your tax and water rates, looking to the reduction of these.

We promise you to take immediate steps to secure the very necessary, one or more, links connecting our city streets for an outlet to the Junipero Serra highway, preferably one from Hillcrest and one from the Vista Grande section.

IT'S UP TO YOU

Tomorrow you have the right to exercise your franchise as a citizen of the greatest democracy and country in the world. While other countries continue to anihilate each other for their territorial and trade gains, you in America are enjoying the right of Freedom of speech, freedom of thought, Freedom of action, and the power to have your voice in who should carry on the affairs of your country, your state, your county and your city. When you go to the polls tomorrow, you alone are the master of your vote. Contrary to what you have read, what you have heard ,or what you have been led to believe, when you pull the curtain about you to exercise that franchise, dismiss these from your mind and think thusly: Will the candidates for whom I am about to vote for be truly representative of what I believe to be good government. Will my vote for these candidates be to the Best interest of my home, my children, their future and the prosperity of the city where I have chosen to live?

You alone, when you cast that vote, know only how you voted. Cast it for those you conscientiously believe will be good, true representatives of You and Yours.

HERBERT G. KING
EUGENE V. LYNCH
